

The Toy Tractor Times Celebrates Anniversary 2005 with the 76' Case 1570

"Time to Celebrate The Red, White and Blue"

In 1972 Case announced it wanted to be a "Big Tractor Specialist" and focused solely on producing high horse power tractors. As the United States was celebrating the bicentennial in 1976, Case introduced the 1570. The Case 6 cylinder, turbocharged 504 cubic inch engine powers the 1570. This big tractor weighs in at a whopping 16,290lbs. For the 1976 introduction only the stars and stripes scheme was offered. This paint feature was called the Spirit of 76. Case sales literature stated:

You've Come a long way, America!

...and we are celebrating the bicentennial with a brand new powerhouse. Biggest in our Agri King line, it symbolizes the progress of American agriculture through the years. Case has proudly been a part of that progress since 1842.

The Spirit of '76 is the biggest two wheel drive we've ever made, with 180 pto horsepower! Designed to speed up your tillage, row crop and heavy pto work, we've matched the 5-4 cu. in. turbocharged diesel with our 12 speed power shift transmission. You get 8 on-the-go speeds in the tillage range, and fast 19.5 transport speed for quick travel between your fields. We've come a long way increasing the American farmers' productivity.

You command this performance from our new EASY-RIDER tractor seat, with seven-way adjustment to fit your working position with comfort. Roll protected super-comfort cab with standard heater and air conditioning. We've come a long way in making the farmers' work more comfortable.

The Spirit of '76 on your farm tells the world you're proud of the job you and farmer ancestors have done for America. You and your Case Spirit of '76 will be ready for tomorrow!
